STRATEGY FOR URGENT REDUCTION OF GREENHOUSE GAS EMISSIONS

1 Make Washington the cheapest state to purchase an electric vehicle

-  Expand the EV sales tax relief to all zero emission vehicles sold in the next two years.
-  Implement point-of-sale incentives for low-income EV purchasers.

2 Assist drivers & households that can't switch to electric straight away

-  Energy rebate for low-income households.
-  Credit applied for state portion of vehicle license tab fees for two years.

3 Improve and Modify the CCA

-  Accelerate program linkage with California/Quebec to broaden the carbon market.
-  Ensure agriculture and maritime exemptions are honored.
